

Caledonia Home Health Care and Hospice Addresses the needs of our neighbors of the Northeast Kingdom

Caledonia Home Health Care (CHHC) provides Hospice and Palliative Care services for our friends and neighbors of Caledonia and Southern Essex Counties. When there is a need for care due to a life threatening or life-limiting illness, call us first. Our offices are located in St. Johnsbury and offer nursing, personal care and therapy services, provided by professionals living in your own community to meet the needs of our clients and loved ones.

Dr. Mary Ready, Medical Director for Hospice (with glasses on right in back row) and who is deeply passionate about this service stated “Hospice is so much more than pain relief provided to a patient. It includes medicine, spiritual support, family support...it is like a warm blanket wrapped around a patient and their family. The Team approach makes delivery of services possible. It is a safe place for a patient to have dignity and calm at their end of life.”

Ken Gordon, Executive Director of the Northeastern Vermont Area Agency on Aging, shared that Caledonia Home Health Care’s Hospice program was very impressive. Regarding the care a recent patient received, he states “The response of Caledonia Home Health and Hospice services is fast, thorough and patient centered. This is true of the therapists, nursing staff, personal care attendants, and homemakers across the board.” Patients and families are provided with quality care that covers pain management, spiritual support and all other needs by “teams responsive to their needs.” Patients have “nothing but positive things to say about the care they have received...it has been impressive. Great work! ”

These services make it possible for clients to remain at home or receive additional care in a facility setting. For more information on how Caledonia Home Health Care and Hospice can help:
